FYI and to close loop.

Here is a link to video of The Ocean Cleanup press event that took place on 10/26/19: <https://youtu.be/KyZArQMfHQ4>

There press event focused on what they call the 'Interceptor'—intended to intercept floating plastic in rivers. Apparently, one of the Interceptors will be deployed in LA County but it is unclear when. The technology seems similar to the Baltimore trash wheel <https://www.mrtrashwheel.com/>.
